BLUE OR GREEN CARD?

Basic difference of the cards is that with the blue card you can have all the discounts where ever you go, and also travel with student price in trains and buses in Finland. With the green card you cannot have travelling discounts. The blue card is for full-time students and the green card is for the part-time students. All the exchange students are normally full-time students and can have the blue card!

REQUIREMENTS TO BE FULFILLED IN GRANTING THE BLUE STUDENT CARD (FULL-TIME STUDENTS)

All these requirements have to be fulfilled.

- The student has enrolled him/herself present at the Laurea University of Applied Sciences for the academic year (or part of it).
- He/she is studying at the basic degree-awarding education producing for instance titles Bachelor of Business Administration (AMK). For exchange students this includes degree awarding education in their home country also.
- He/she has no earlier higher degree from a higher education institution.
- He/she is not studying by an apprenticeship contract nor the studies are included to the staff training or labor education.
- He/she is performing full-time studies.
- He/she has no income from a permanent position or from a permanent job.
- He/she becomes a member of the Student Union LAUREAMKO.
- The regular duration of his/her studies is min. 8 months. For exchange students the 8-month duration includes studies in home country and in Finland.
- He/she commits him/herself to returning the student card, when he/she does not fulfill these requirements any more.

THE GREEN STUDENT CARD (PART-TIME STUDENTS)

- If you are not entitled to the blue student card, you can apply for a green one, which will grant you benefits with LAUREAMKO's discounts, KELAs meal subsidy and most of the national benefits.
